INFRASTRUCTURE

Lecture Halls

Fully equipped with latest teaching aids (audio visual projectors, over head projectors, white boards etc.). All the classrooms are airy, comfortable and well lit. To enhance the knowledge of our students, special guest lecturers, personality development programs, seminars, symposiums are organized regularly.

Computing Resource Centre

The latest IT equipment provides students with an opportunity to fully understand the use of computers as an educational tool. All the computers are Pentium 4 with internet facility. Hands-on training is given for various applications.

Library

The library has a large collection of books by Indian and foreign authors covering several disciplines. Various international and national journals are subscribed to for each discipline. Students' learning is reinforced when they refer to the books in the library.

Faculty

The faculty members are meticulous academicians with excellent professional knowledge. This ensures the students get exposure to both practical competencies and theoretical frameworks. They bring with them the richness of experience and exposure and encourage students to explore their potential.

Advanced Laboratories

The Institute has excellent hi-tech laboratories. All laboratories are fully equipped to conduct experiments and play a very vital role in technical education.

Hostel and Mess Facilities

The Institute has separate hostels for girls and boys. They are provided with a recreation centre. The meals are hygienic, wholesome and nourishing. Hostellers are encouraged to participate actively in menu planning.
